“conference is wonderful. “

”don't worry if you don't know many people before you go cos you make friends really quickly. i knew two people well and had met two others a couple of times but didn't even recognise the names of anyone else. but i managed to make friends within a few minutes of arriving at the train station cos i got there early and talked to a few people and suddenly there were dozens which was a bit intimidating. you can pretty much just start talking to anyone though cos we're all very friendly. you get opportunities to meet people during the first meal because you get randomly split into different tables.”
